

Continuous MVR monitoring: Samba Safety

copperpoint.com

Receive 360-degree visibility of all of the drivers in your fleet to reduce risk.

With continuous MVR (motor vehicle record) monitoring, help protect your reputation, lower your risk, and improve your bottom line with safer drivers.

Driver Risk Management

CopperPoint offers continuous MVR monitoring to our commercial auto policyholders at a special rate.

Use continuous monitoring in your fleet to:

- Select prospective safe drivers
- Assess individual driver performance
- Reduce accidents
- Enforce driver policies
- With continuous MVR monitoring, receive alerts about negative changes in your drivers' behavior, and a dashboard that will identify drivers that need additional training or job duty adjustments.
- Safer drivers mean fewer accidents, reduced likelihood of an accident, and the potential for lower insurance costs.

Continuous MVR Monitoring to Identify Trends

- Drivers with past convictions are more likely to have future crashes, according to research. Continuous MVR monitoring provides real-time information and risk analysis to identify which drivers are high, medium, and low risk. Parking: Straight Truck Series
